## Experience

### Graphic Designer - Living Proof press Ltd.

2019 -2021

- Collaborated with clients to conceptualize and execute effective brand identity designs, ensuring alignment with their vision and goals.
- Provided personalized design consultations, guiding clients through the creative process to achieve tailored and impactful visual solutions.
- Utilized industry-standard design software, including Adobe Photoshop and Corel Draw, to produce high-quality visuals and graphics.
- Applied advanced design techniques to create visually compelling and professional brand identities.

**Tools Used:** Photoshop, Corel Draw, Microsoft word

## PROJECTS

### Spring Boot REST API Blog Application

October 2023

- Developed a full-featured blog application backend using Java and Spring Boot, delivering a robust platform for creating, reading, updating, and deleting blog posts.
- Designed and built RESTful APIs for seamless communication between the front-end and the back-end, enhancing user experience and application performance.
- Ensured application security and data integrity by leveraging Spring Security with JWT, protecting against unauthorized access and potential threats.
- Documented APIs using Swagger UI for clear, interactive, and comprehensive API documentation, facilitating easier integration and maintenance.

**Technology Used:** Java, Spring Boot, Spring Security 6, JWT, Spring Data JPA, Hibernate, MySQL,

### Customer Relation Management (CRM) Application

March 2024

- Developed a full-stack application for managing customer records, facilitating seamless CRUD (Create, Read, Update, Delete) operations.
- Implemented search functionality, allowing users to efficiently search through customer records via a search bar.
- Ensured application security by implementing user authentication and authorization using Spring Security, restricting access to authorized, logged-in users only.
- Utilized Java and Spring Boot to develop the application's back-end, ensuring robust and scalable performance.
- Leveraged Vaadin framework for front-end development, enabling the creation of a rich user interface using plain Java

**Technology Used:** Java, Spring Boot, Spring Security 6, Vaadin, Spring Data JPA, Hibernate, MySQL,

### Kitchen Timer Application

May 2024

- Designed and developed an Arduino-based Kitchen Timer, facilitating precise countdown functionality.
- Implemented a 4x4 keypad for intuitive user input to set the countdown timer.
- Integrated a 16x2 LCD screen to display the countdown timer clearly and accurately.
- Added functionality to stop the buzzer and reset the timer with a single key press, enhancing user convenience.
- Utilized C++ for Arduino programming, creating a practical and user-friendly timer for kitchen and other timed activities.

## EDUCATION & CERTIFICATE

### Vistula University - Warsaw, Poland

Feb 2024 - Present

Bachelor of Computer Science, specialize in web application developments.

Currently in my 3rd year, having transferred credit from my previous university.

**Yanka Kupala State University - Grodno, Belarus**

*Bachelor of Information Technology Software*

*Sep 2021 - July 2023*

**Certificate in Building Real-Time REST APIs with Spring Boot - Udemy**

*June 2024*

- Gained expertise in developing robust and scalable REST APIs using Spring Boot.
- Learned to implement real-time features and manage data efficiently in web applications.
- Acquired hands-on experience with Spring Boot and Spring Security enhancing skills in backend development and API integration.

**SKILL & OTHERS**

---

*Programming:* Java, Python

*Framework:* Spring Boot, Django

*Languages:* English, Russia

**Volunteering:**

*Living World Full Gospel church(Church Organization):*

- Designed and developed a visually appealing website for Living World Full Gospel Church, enhancing its online presence.
- Managed social media accounts to boost the church's visibility both nationally and internationally.
- Increased online engagement and audience reach, contributing to a broader global audience for the church.
- Implemented strategies to improve online visibility, leveraging digital tools to connect with and expand the church's community.
